

TKT and CELTA at ICC Hawaii

ICC offers the TKT and CELTA courses.

TKT

The TKT course consists of non-native speakers who want to gain knowledge about teaching. The course focuses on three areas: background of language teaching, lesson planning and using different resources and managing a classroom environment. The final exams test the candidates' knowledge of teaching and not their ability to teach.

CELTA

The CELTA course consists of native-speakers and non-native speakers whose English is near-native proficiency. This course allows the candidates to demonstrate their ability to teach and to apply the areas of focus learned from the TKT.

To make yourself more markatable in the field of English language teaching, These two courses combined will open up the doors to many teaching possibilities!

TKT

- 8 weeks
- Knowledge

CELTA

- 4 weeks
- Practical Skill
